

SOLARIS ROCK & TREE HANDLER

Quality Attachments, Parts & Customer Service

The Rock and Tree Hand is the ideal multi-purpose attachment. Originally designed to handle palm trees, the Rock and Tree Hand is used for much more applications. Precise and Powerful, it is the perfect tool to handle heavy material that needs an accurate set-up. Mounted on a rotating base, it will rotate up to 127 degrees, and opens up to 46 inches.

The Rock and Tree Hands unique design insures even clamping pressure, preventing slippage. With the Rock and Tree Hand, the operator can easily pick up trees, rocks, or any other material and place it where he wants, the way they want!

5-Finger Model EZ-2010

3-Finger Model EZ-0010
